SUMMARY

Senior Customer & Programme Leader with 20+ years' experience delivering complex, customer-facing transformation across Microsoft collaboration, voice, and cloud platforms. Proven track record of leading executive-level engagements, driving adoption and value realisation, and aligning business outcomes with technology strategy. Trusted advisor to enterprise customers, with deep experience in change management, programme governance, and cross-functional delivery.

SUMMARY EXPERIENCE

Director of Delivery

CloudInteract

January 2025 – Present, Home based

- Own end-to-end delivery and customer success for **cloud contact centre solutions**, primarily **Amazon Connect**, alongside AWS services and integrated platforms including **Salesforce and Zendesk**.
- Lead and mature the **delivery governance and PMO function**, establishing consistent planning, reporting, and risk management practices across all customer engagements.
- Act as senior escalation point and trusted advisor for **C-suite, CIO/CTO, Heads of Contact Centre, and Programme Sponsors**, shaping expectations and driving successful outcomes.
- Drive **customer success and adoption outcomes**, ensuring solutions deliver measurable business value and accelerated time-to-value post-go-live.
- Introduced structured delivery tooling and practices (including **Jira-based planning and reporting**), improving **on-time, on-budget delivery performance by ~20%** and significantly reducing overruns and escalations.
- Lead **commercial delivery accountability**, balancing utilisation, delivery cost control, and margin protection while maintaining high customer satisfaction.
- Partner closely with **Sales, Engineering, and Customer Success** teams to align commercial commitments with delivery capability, improving cross-functional execution and customer experience.
- Designed and implemented a **revised delivery model and governance framework** to stabilise and scale a delivery function that required improvement.
- Reset customer expectations and recovery plans where required, rebuilding confidence through clear roadmaps, transparent reporting, and executive-level engagement.
- Support customers' broader **cloud transformation and change management journeys**, including user adoption considerations across platforms such as **Microsoft Copilot & Copilot Studio**.
- Provide strategic oversight across multiple concurrent programmes in both **UK and US markets**, ensuring consistency, quality, and alignment to customer business priorities.
- Strengthened partner relationships across AWS, Salesforce, and other key technology providers, enabling access to advanced resources and accelerating solution deployment for enterprise clients.

Director of Business Operations

Symity

March 2022 – December 2024, Home Based
